Indian Institute of Psychodrama
presents,

"Fairytales and Psychodrama" Workshop --
Christmas edition, December 2021.

With Christmas on cards and with joy in our hearts, we bring to you an opportunity to uncover parts of 'you' through this "Fairytales and Psychodrama" workshop.

This workshop would help you to re-frame and re-imagine the stories of your life and also explore the issues by enacting the stories. Along the way, you might gain various perspectives and more compassion and empathy for yourself and those around you.

Find yourself in the story, and find the story in you!

For those of you who conduct coaching or counselling sessions (or who aspire to do so) -- the methods used in this workshop might be very useful.

The Workshop Poster is at
